

Report of the reviewers of the Financial Statements of the Kingsburg Coastal Conservancy Assn for the year ending April 30, 2020

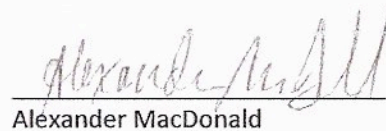

September 15, 2020

Robert Buckley and Alexander MacDonald, at the request of the membership, undertook an independent review of the financial records of the Kingsburg Coastal Conservancy Association (KCC) for the year ended April 30, 2020.

To conduct such a review, we analyzed all available financial material and records. We have satisfied ourselves that the financial report of the KCC for the year ended April 30, 2020 accurately reflects the financial position of the KCC at that point in time.

We emphasize that we conducted such a review in good faith, as volunteers without paid compensation, and that while we have experience in budgets and financial reporting, we do not hold any qualifications to conduct an audit, nor to provide an audit opinion. We also emphasize that in the course of the review we have no capacity to measure that all donations and funds received were accurately recorded in the books of account. We are only able to review and reconcile those funds for which a receipt was written.
